

SAFETY DATA SHEET **AZOLLA ZS 100**

SDS # : 083014

Section 1. Identification		
Product identifier	: AZOLLA ZS 100	
Relevant identified uses o	f the substance or mixture and uses advised against	
Identified uses		
Hydraulic oil		
Supplier's details	:	
	FotalEnergies Marketing Asia-Pacific Middle East Pte. Ltd. 182 Cecil Street #27-01 Frasers Tower Singapore 069547 Tel: +65 6879 2200 ms.ap-sds@totalenergies.com	
Emergency telephone number (with hours of operation)	:	
	Asia-Pacific: +65 3158 1074	
Section 2. Hazar	ds identification	
Classification of the substance or mixture	: Not classified.	
GHS label elements, inclu	ding precautionary statements	
Signal word	: No signal word.	
Hazard statements	: No known significant effects or critical hazards.	

Hazard statements	4	No known significant effects or critical hazards.
Precautionary statements		
Prevention	:	Not applicable.
Response	:	Not applicable.
Storage	:	Not applicable.
Disposal	:	Not applicable.
Other hazards which do not	1	Prolonged or repeated contact may dry skin and cause irritation

result in classification

e irritation.

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Ingredient name	% (w/w)	CAS number
₹,6-di-tert-butylphenol	≤0.3	128-39-2

Additional information

: Mineral oil of petroleum origin Product containing mineral oil with less than 3% DMSO extract as measured by IP 346

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Chemical formula

: Not applicable.

Section 4. First aid measures

Description of necess	sary first aid measures
Eye contact	 Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention.
Inhalation	 Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Wash skin thoroughly with soap and water or use recognized skin cleanser. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: ₩ash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

moot importante officient	
Potential acute health e	ffects
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: Defatting to the skin. May cause skin dryness and irritation.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/sy	r <u>mptoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: Adverse symptoms may include the following: irritation dryness cracking
Ingestion	: No specific data.
Indication of immediate r	nedical attention and special treatment needed, if necessary
Notes to physician	 Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.

: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: \mathbf{V} se dry chemical, CO_2 , water spray (fog) or foam.
Unsuitable extinguishing media	: Do not use water jet.

Protection of first-aiders

Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: carbon monoxide carbon dioxide nitrogen oxides phosphorus oxides sulfur oxides Hydrogen sulfide Mercaptans Zinc oxides
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protec	quipment and emergency procedures	
For non-emergency personnel	action shall be taken involving any personal risk or without suitable tra acuate surrounding areas. Keep unnecessary and unprotected persor tering. Do not touch or walk through spilled material. Put on appropria rsonal protective equipment.	nnel from
For emergency responders	specialized clothing is required to deal with the spillage, take note of an ormation in Section 8 on suitable and unsuitable materials. See also the ormation in "For non-emergency personnel".	
Environmental precautions	roid dispersal of spilled material and runoff and contact with soil, waterv ains and sewers. Inform the relevant authorities if the product has caus vironmental pollution (sewers, waterways, soil or air).	
Methods and materials for co	ment and cleaning up	
Small spill	op leak if without risk. Move containers from spill area. Dilute with wat if water-soluble. Alternatively, or if water-insoluble, absorb with an ine aterial and place in an appropriate waste disposal container. Dispose c ensed waste disposal contractor.	rt dry
Large spill	op leak if without risk. Move containers from spill area. Prevent entry i ater courses, basements or confined areas. Wash spillages into an effl atment plant or proceed as follows. Contain and collect spillage with n mbustible, absorbent material e.g. sand, earth, vermiculite or diatomac d place in container for disposal according to local regulations (see Sec spose of via a licensed waste disposal contractor. Note: see Section 1 hergency contact information and Section 13 for waste disposal.	uent on- eous earth ction 13).

Section 7. Handling and storage

Precautions for safe handling Protective measures Advice on general occupational hygiene : Put on appropriate personal protective equipment (see Section 8). : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities incompatible incompatible

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

None.

Occupational exposure limits Philippines

Product/substance		Exposure limit values
₱ Stillates (petroleum), hydrotreated heavy		TLV = Threshold Limit Value (Philippines, 4/2016).
paraffinic		TLV: 5 mg/m ³ 8 hours.
Residual oils (petroleum), hydrotreated		TLV = Threshold Limit Value (Philippines, 4/2016). TLV: 5 mg/m ³ 8 hours.
Residual oils (petroleum),	solvent-dewaxe	•
		TLV: 5 mg/m ³ 8 hours.
Advisory OEL		pil mist: USA: OSHA (PEL) TWA 5 mg/m3, NIOSH (REL) TWA 5 mg/m3, mg/m3, ACGIH (TLV) TWA 5 mg/m3 (highly refined)
Appropriate engineering controls	: Good ge contamir	neral ventilation should be sufficient to control worker exposure to airborne nants.
Environmental exposure controls	they com cases, fu	is from ventilation or work process equipment should be checked to ensure apply with the requirements of environmental protection legislation. In some time scrubbers, filters or engineering modifications to the process nt will be necessary to reduce emissions to acceptable levels.
Individual protection meas		
Hygiene measures	eating, si Appropri Wash co	ands, forearms and face thoroughly after handling chemical products, before moking and using the lavatory and at the end of the working period. ate techniques should be used to remove potentially contaminated clothing. ntaminated clothing before reusing. Ensure that eyewash stations and lowers are close to the workstation location.
Eye/face protection	assessm gases or	vewear complying with an approved standard should be used when a risk ent indicates this is necessary to avoid exposure to liquid splashes, mists, dusts. If contact is possible, the following protection should be worn, he assessment indicates a higher degree of protection: safety glasses with elds.
Skin protection		
Hand protection	be worn this is ne Hydrocar Fluorinat nitrile rut Please o are provi	bon-proof gloves ed rubber

 Body protection Personal protective equipment for the body should be selected based being performed and the risks involved and should be approved by a s before handling this product. 	
Other skin protection : Appropriate footwear and any additional skin protection measures sho selected based on the task being performed and the risks involved and approved by a specialist before handling this product.	d be
Respiratory protection : Mone under normal use conditions If these are not sufficient to mainta below the OEL, suitable respiratory protection must be worn (Type A/F	 sure

Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature (20°C / 68°F) and pressure (1013 hPa) unless otherwise indicated

<u>Appearance</u>	
Physical state	: Liquid.
Color	: Yellow. [Light]
Odor	: Characteristic.
Odor threshold	: Not available.
рН	: Not available.
Melting point/freezing point	: Not available.
Boiling point	: Not available.
Flash point	: Open cup: 247°C (476.6°F) [ASTM D 92]
Evaporation rate	: Not available.
Flammability (solid, gas)	: Not available.
Lower and upper explosive (flammable) limits	: Not available.
Vapor pressure	: Not available.
Vapor density	: Not available.
Relative density	: 0.88 [ASTM D 4052]
Density	: Ø.88 g/cm³ [15°C] [ASTM D 4052]
Solubility	: Insoluble in the following materials: cold water and hot water.
Miscible with water	: No.
Partition coefficient: n- octanol/water	: Not applicable.
Auto-ignition temperature	: Not available.
Decomposition temperature	: Not available.
Viscosity	: ₭nematic (40°C (104°F)): 101 mm²/s (101 cSt) [ASTM D 445]
Flow time (ISO 2431)	: Not available.
Particle characteristics	
Median particle size	: Not applicable.

Section 10. Stability and reactivity

Reactivity	:	No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	:	Stable under recommended storage and handling conditions (see Section 7).
Possibility of hazardous reactions	:	Under normal conditions of storage and use, hazardous reactions will not occur.

Date of revision	: 2022/05/17	Singapore	ENGLISH	Version : 1.01	5/1

Product/substance	LogK _{ow}	BCF	Potential
2,6-di-tert-butylphenol	4.48	660	high

Mobility in soil

Soil/water partition coefficient (K_{oc}) Mobility in soil : Not available.

: Given its physical and chemical characteristics, the product generally shows low soil mobility The product is insoluble and floats on water Loss by evaporation is limited

SDS #: 083014

Other adverse effects

: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

	-				
	UN	IMDG	ICAO/IATA	ADR/RID	ADN
UN/ID No	Not regulated.				
UN proper shipping name	-	-	-	-	-
Transport hazard class (es)	-	-	-	-	-
Packing group	-	-	-	-	-
Environmental hazards	No.	No.	No.	No.	No.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

Section 15. Regulatory information

Singapore - hazardous chemicals under government control

None.

National regulations

This Safety Data Sheet (SDS) has been prepared according to Singapore Standard SS 586 on "Specification for Hazard Communication for Hazardous Chemicals and Dangerous Goods"

Workplace Safety and Health (General Provision) Regulations

Philippines

National regulations

This Safety Data Sheet (SDS) has been prepared according to EMB Memorandum Circular on "Guidance Manual for Department Administrative Order 2015-09, Rules and Procedures for the Implementation of GHS in Preparation of SDS and Labelling Requirements of Toxic Chemical Substances"

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals Not listed.

Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants Not listed.

Rotterdam Convention on Prior Informed Consent (PIC) Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals Not listed.

Inventory list

Australia inventory (AIIC) Canada inventory (DSL/NDSL) China inventory (IECSC) Europe inventory (EINECS/ELINCS/NLP) Japan inventory
