

SAFETY DATA SHEET **RUBIA FLEET HD 300 15W-40**

SDS # :

085112

Section 1. Identification **Product identifier**

: RUBIA FLEET HD 300 15W-40

Relevant identified uses of the substance or mixture and uses advised against

Identif	ed uses
Motor of	oil de la companya de

Supplier's details

TotalEnergies Marketing Asia-Pacific Middle East Pte. Ltd. 182 Cecil Street #27-01 Frasers Tower Singapore 069547 Tel: +65 6879 2200 ms.ap-sds@totalenergies.com

Emergency telephone number (with hours of operation)

Asia-Pacific: +65 3158 1074

Section 2. Hazards identification

ŝ

Classification of the : Not classified. substance or mixture

GHS label elements, including precautionary statements

Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Not applicable.
Disposal	: Not applicable.

result in classification

Other hazards which do not : Prolonged or repeated contact may dry skin and cause irritation.

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Ingredient name	% (w/w)	CAS number	
phenol, (tetrapropenyl) deriva-tives	≤0.1	74499-35-7	
Additional information Alignment of a Mineral of a state bases arisin. Deschart a			

Additional information

: Mineral oil of petroleum origin Product containing mineral oil with less than 3% DMSO extract as measured by IP 346

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Date of revision	: 2022/03/30	Singapore ENGLISH	Version	:1	1/10
------------------	--------------	-------------------	---------	----	------

SDS #: 085112

Occupational exposure limits, if available, are listed in Section 8.

Chemical formula

: Not applicable.

Section 4. First aid measures

Description of necess	ary first aid measures
Eye contact	 Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention.
Inhalation	 Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Wash skin thoroughly with soap and water or use recognized skin cleanser. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effe	<u>cts</u>
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: Defatting to the skin. May cause skin dryness and irritation.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/sym	<u>otoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: Adverse symptoms may include the following: irritation dryness cracking
Ingestion	: No specific data.
Indication of immediate me	dical attention and special treatment needed, if necessary
Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use dry chemical, CO ₂ , water spray (fog) or foam.
Unsuitable extinguishing media	: Do not use water jet.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.

SDS #: 085112

Hazardous thermal decomposition products	:	Carbon dioxide. carbon monoxide Hydrogen sulfide Mercaptans phosphorus oxides sulfur oxides Zinc oxides
Special protective actions for fire-fighters	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures : No action shall be taken involving any personal risk or without suitable training. For non-emergency Evacuate surrounding areas. Keep unnecessary and unprotected personnel from personnel entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. For emergency responders : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". **Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Methods and materials for containment and cleaning up Small spill : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, Large spill water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling	1	
Protective measures	1	Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

SDS #: 085112

Conditions for safe storage,	
including any	from direct sunlight in a dry, cool and well-ventilated area, away from incompatible
incompatibilities	materials (see Section 10) and food and drink. Keep container tightly closed and
	sealed until ready for use. Containers that have been opened must be carefully
	resealed and kept upright to prevent leakage. Do not store in unlabeled containers.
	Use appropriate containment to avoid environmental contamination. See Section 10
	for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

None.

Occupational exposure limits Philippines

	Product/substance			Exposure limit values
	Distillates (petroleum), hydroti paraffinic Distillates (petroleum), hydroti paraffinic Distillates (petroleum), solven paraffinic	rea	ated light	TLV = Threshold Limit Value (Philippines, 4/2016).TLV: 5 mg/m³ 8 hours.TLV = Threshold Limit Value (Philippines, 4/2016).TLV: 5 mg/m³ 8 hours.TLV = Threshold Limit Value (Philippines, 4/2016).TLV: 5 mg/m³ 8 hours.
	Advisory OEL	:		: USA: OSHA (PEL) TWA 5 mg/m3, NIOSH (REL) TWA 5 mg/m3, 3, ACGIH (TLV) TWA 5 mg/m3 (highly refined)
	ppropriate engineering ontrols	:	Good general v contaminants.	entilation should be sufficient to control worker exposure to airborne
	nvironmental exposure ontrols	:	they comply wit cases, fume sc	ventilation or work process equipment should be checked to ensure h the requirements of environmental protection legislation. In some rubbers, filters or engineering modifications to the process be necessary to reduce emissions to acceptable levels.
<u>Ir</u>	ndividual protection measure	<u>es</u>		
	Hygiene measures	:	eating, smoking Appropriate tec Wash contamir	prearms and face thoroughly after handling chemical products, before and using the lavatory and at the end of the working period. hniques should be used to remove potentially contaminated clothing. hated clothing before reusing. Ensure that eyewash stations and are close to the workstation location.
	Eye/face protection	:	assessment inc gases or dusts.	complying with an approved standard should be used when a risk licates this is necessary to avoid exposure to liquid splashes, mists, If contact is possible, the following protection should be worn, essment indicates a higher degree of protection: safety glasses with
	Skin protection			
	Hand protection	:	be worn at all tin this is necessar Hydrocarbon-pr Fluorinated rub nitrile rubber Please observe are provided by local conditions	oof gloves

085112

Body protection	 Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	 Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: None under normal use conditions

Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature (20°C / 68°F) and pressure (1013 hPa) unless otherwise indicated

Appearance

Physical state	:	Liquid.
Color	:	Orange.
Odor	:	Characteristic.
Odor threshold	:	Not available.
рН	:	Not available.
Melting point/freezing point	:	Not available.
Boiling point	:	Not available.
Flash point	:	Open cup: 237°C (458.6°F) [ASTM D 92]
Evaporation rate	:	Not available.
Flammability (solid, gas)	:	Not available.
Lower and upper explosive	:	Not available.
(flammable) limits		
Vapor pressure	4	Not available.
Vapor density	1	Not available.
Relative density	1	0.875 [ASTM D 4052]
Density	1	0.875 g/cm³ [15°C] [ASTM D 4052]
Solubility	1	Insoluble in the following materials: cold water and hot water.
Miscible with water	1	No.
Partition coefficient: n-	4	Not applicable.
octanol/water		
Auto-ignition temperature	÷	
Decomposition temperature	1	
Viscosity	1	Kinematic: 105.7 mm²/s (105.7 cSt) [ASTM D 445
		j Natovsijakla
Flow time (ISO 2431)	1	Not available.
Particle characteristics		
Median particle size		: Not applicable.

Section 10. Stability and reactivity

Reactivity	:	No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	:	Stable under recommended storage and handling conditions (see Section 7).
Possibility of hazardous reactions	:	Under normal conditions of storage and use, hazardous reactions will not occur.

Date of revision	: 2022/03/30	Singapore EN	NGLISH Version	:1	5/10

SDS # : 085112

Conditions to avoid	: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Incompatible materials	: Strong oxidizing agents
Hazardous decomposition products	: Carbon dioxide. carbon monoxide Hydrogen sulfide Mercaptans phosphorus oxides sulfur oxides Zinc oxides
SADT	: Not available.

SDS #: 085112

Information on the likely routes of exposure	Not available.
Potential acute health effect	
	No known significant offacts or critical bazards
Eye contact Inhalation	No known significant effects or critical hazards.
	No known significant effects or critical hazards.
Skin contact	Defatting to the skin. May cause skin dryness and irritation.
Ingestion	No known significant effects or critical hazards.
Symptoms related to the phy	cal, chemical and toxicological characteristics
Eye contact	No specific data.
Inhalation	No specific data.
Skin contact	Adverse symptoms may include the following:
	irritation
	dryness
Instantion	cracking
Ingestion	No specific data.
Delayed and immediate effe	and also chronic effects from short and long term exposure
Short term exposure	
Potential immediate effects	Not available.
Potential delayed effects	Not available.
Long term exposure	
Potential immediate effects	Not available.
Potential delayed effects	Not available.
Potential chronic health eff	<u>ts</u>
Not available.	
General	Prolonged or repeated contact can defat the skin and lead to irritation, cracking and or dermatitis.
Carcinogenicity	During use in engines, contamination of oil with low levels of combustion products occurs. Used motor oils have been shown to cause skin cancer in mice following repeated application and continuous exposure. Brief or intermittent skin contact with used motor oil is not expected to have serious effects in humans if the oil is thoroughly removed by washing with soap and water.
Mutagenicity	No known significant effects or critical hazards.
Reproductive toxicity	No known significant effects or critical hazards.
Numerical measures of toxic	1
Acute toxicity estimates	

Acute toxicity estimates

SDS # : 085112

Section 12. Ecological information

Toxicity	
Conclusion/Summary	: This product contains one or more components that have a branched alkylphenol impurity which is very toxic to aquatic life (disclosed in section 3). Components containing the impurity have been tested and are not toxic to aquatic life. Therefore, the data in Section 3 for the alkylphenol impurity should not be used to classify the product for aquatic toxicity
Persistence/degradability	
Not available.	
Bioaccumulative potential	
Not available.	
Mobility in soil	
Soil/water partition coefficient (K _{oc})	: Not available.
Mobility in soil	: Given its physical and chemical characteristics, the product generally shows low soil mobility The product is insoluble and floats on water Loss by evaporation is limited
Other adverse effects	: No known significant effects or critical hazards.
Section 13. Dispo	sal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

	•				
	UN	IMDG	ICAO/IATA	ADR/RID	ADN
UN/ID No	Not regulated.
