CERAN XM 460

Grease

Extreme-pressure water resistant high temperature "NEW GENERATION" calcium sulfonate complex grease

APPLICATIONS

Multi purpose heavy duty water resistant grease. Shock loaded applications in industry even in severe demanding environment (water, dust, high temperature).

- CERAN XM 460 is made of the NEW GENERATION calcium sulfonate complex soap designed by TOTAL Lubrifiants. This new soap has enhanced properties in terms of water and thermal resistance, load capacity, anticorrosion properties while keeping a very high level of pumpability and ability to lubricate well in case of high loads.
- ➤ CERAN XM 460 is suitable for the lubrication of all kinds of components subject to high loads and temperatures, shocks, working in conditions where the grease is in frequent contact with water (even sea water due to enhanced antirust performances).
- ➤ CERAN XM 460 is suitable for the lubrication of bearings in steel plants (continuous castings and rolling mills) and in paper industry. Ceran XM 460 is also suitable for the lubrification of hard wood granular presses and in all industrial applications under severe conditions (wet, loaded, high temperature, dust,...) namely mining and cement industries.
- CERAN XM 460 is suitable for use in centralized greasing systems.
- Always avoid contamination of the grease by dust and/or dirt when applying. Preferably use a pneumatic pump system.

SPECIFICATIONS

ISO 6743-9: L-XBFIB 1/2DIN 51 502: KP1/2R -25

ADVANTAGES

True multi purpose. Shock loads. Water resistant. Anti corrosion.

- The NEW GENERATION of calcium sulfonate complex soap developed by TOTAL Lubrifiants allows CERAN XM 460 to present outstanding performances even at high nDm. This NEW GENERATION keeps all benefits in terms of corrosion protection, bearings lifetime, high loads and thermal resistance.
- Excellent anti-oxidation and anti-corrosion properties thanks to the excellent behaviour of the calcium sulfonates, also in the presence of sea water.
- **NEW GENERATION** allowing use in high speed factors.
- ➤ The **NEW GENERATION** of calcium sulfonate complex soap allows to keep outstanding **CERAN XM 460** performances even in case of high speed applications where normally polyurea or lithium complex greases are requested.

No harmful substances.

CERAN XM 460 does not contain lead, or other heavy metals considered harmful to human health and the environment.
